

Sprint Plan 3 - CMPS 115 - Software Methodology

Document Name: Sprint 3 Plan

Product Name: Driving Tracker

Team Name: Drifting Coders

Sprint Completion Date: November 27th, 2015

Revision Number / Date: 2.0 / November 27th, 2015

Goal:

The goal of this sprint is to make the UI looks nice and add last functionality to the app.

Task listing, organized by user story:

User story 1:

As a user, I would like to have a nice and easy to use layout to all android pages.

Task 1: Implement main page of the app needs to have images and the layout must be intuitive to user (5 hours)

Task 2: Implement a background on the add friend's page (2 hours)

Task 3: Implement readable size buttons, background, and layout for the Create Event page (6 hours)

Task 4: Organize View log as a table grid (3 hours)

Total: 16 hours

User story 2:

As a user, I would like to view a list of events I've been invited to accept I decline them, so that I can chose which event to attend.

Task 1: Create XML for View Events page. (3 hours)

Task 2: Query database for the list of events. (3 hours)

Task 3: Add accept and decline button for each event. (4 hours)

Task 4: Update database once user has accepted or declined. (5 hours)

Task 5: Highlight accept/decline button chosen. (2 hours)

Task 6: Refresh page functionality. (3 hours)

Total hours: 20 hours

User Story 3:

As a user, I would like to update my create event page to show who is attending and also add delete guest functionality.

Task 1: Add Refresh page to passenger list. (6 hours)

Task 2: Delete Passenger Button. (6 hours)

Total hours: 12 hours

User Story 4:

As a user, I would like to have the ability to change my password, so that if I lose my credentials I can change them.

Task 1: Create the buttons and TextEdit Fields. (3 hours)

Task 2: Add update password functionality to password change page. (6 hours)

Task 3: Make the user interface consistent with the other app pages. (4 hours)

Total hours: 13 hours
